Gestalt Therapy was developed in the 1940's by Fritz and Laura Perls and further influenced by the likes of Kurt Lewin and Kurt Goldstein (Corsini & Wedding, 2000). It was developed as a revision to psychoanalysis and focuses on an experiential and humanistic approach rather than analysis of the unconscious which was one of the main therapeutic tools at the time Gestalt Therapy was employed.

AIPC Article Library | Gestalt Therapy

A sound theoretical approach is essential to the professional integrity of mental health counselors. This article examines the basic concepts of existential theory, indicates how this theory provides a sound theoretical basis for mental health counseling, and supports the thesis that brief solution-focused therapy is a clinical application of existential theory.

Existential theory and solution-focused strategies ...
