## **Code Smart: Introduction - Dayle Rees**

Code Smart: Composer. In this chapter, we're going to take a pause from Laravel to examine another tool in the PHP world. Don't worry. Laravel does make use of this tool, so if you stick it out, it will make you a better Laravel developer. Composer is something special in the world of PHP.

## **Code Smart: Composer - Dayle Rees**

Response objects contain a body, a status code, HTTP headers, and other useful information. For example, the body segment of the View would be its HTML content. The status code for a Redirect would be a 301. Laravel uses this information to construct a sensible result that can be returned to the browser.
