Combinatorics and Graph Theory | John Harris | Springer

This paper describes an application of a multi-objective optimization algorithm (i.e., the non-dominated sorting genetic algorithm II [NSGA-II]) and a fuzzy expert system (FES) to allocate municipal waste capacities to recycling, aerobic composting, incinerator, and landfill facilities with these objectives: (1) minimization of the economic cost; and (2) minimization of the environmental cost ...

A multi-objective optimization model for ... - Springer

Cemented coarse-grained alluvium is present in a vast area of Tehran city, Iran including its suburbs. This deposit consists of gravely sand to sandy gravel with some cobbles and is dominantly cemented by carbonaceous materials. In order to understand the mechanical behaviour of this soil, a series of triaxial compression tests were performed on uncemented, artificially cemented and ...

Triaxial behaviour of a cemented gravely sand ... - Springer

Women with gestational diabetes mellitus (GDM) might ignore adherence to their treatment regimen and can be exposed to an increased risk of type II diabetes due to unawareness, a lack of access to healthcare services, and a poor perception of the disease. This study aimed to describe the effect of smartphone-education on risk-perception of type 2 diabetes in women with gestational diabetes.

The role of smartphone-based education on the ... - Springer

Multiple sclerosis is increasingly becoming a major health problem among women worldwide. The aim of the present study was to estimate prevalence of depression in women with multiple sclerosis and also to identify risk factors contributing to its development. This was a cross-sectional study of depression in a sample of 226 women with multiple sclerosis.

Prevalence and risk factors for depression in women with ...

The electrochemical reduction of CO 2 is a reaction of much current interest as a possible reaction for energy storage. In this paper, we show that on electrodeposited palladium on platinum, a good formic acid oxidation catalyst, the onset potential for CO 2 reduction to formic acid is dramatically reduced in comparison to bulk palladium. Two different reaction pathways are observed; a pathway ...

Electrochemical CO2 reduction to formic acid on a Pd-based ...

Background: Regarding the role of gut microbial dysbiosis in hyperglycemia, we aimed to compare the main gut bacterial composition among type 1 and type 2 diabetic patients and healthy non-diabetic adults. Methods: A total of 110 adult subjects (49 patients diagnosed with type 2 diabetes, 21 patients diagnosed with type 1 diabetes and 40 healthy persons) were included in this case-control study.

Main gut bacterial composition differs between patients ...
