slavery.

Plantation | agriculture | Britannica

Tobacco and cotton proved to be exceptionally profitable. Because these crops required large areas of land, the plantations grew in size, and in turn, more slaves were required to work on the plantations. This sharpened class divisions, as a small number of people owned larger and larger plantations.

This is a list of plantations and/or plantation houses in the U.S. state of Louisiana that are National Historic Landmarks, listed on the National Register of Historic Places, listed on a heritage register; or are otherwise significant for their history, their association with significant events or people, or their architecture and design.

List of plantations in Louisiana - Wikipedia

Plantations emphasize the renewable nature of the wood industry—in some cases, you might have useable timber within a few years. Last year I saw Pine plantations in southern Brazil where the trees topped three meters in 3 years and could be harvested for full timber production between 7 and 15, depending on how you wanted to use the logs.
