The Sixth Extinction is an apocalyptic tale about a pandemic that sweeps the globe, decimating the human race, leaving humanity struggling to survive. Within three weeks everything has changed. Social structure has collapsed. The police are non-existent, and the army concentrates on the cities.

The Sixth Extinction Series by Glen Johnson

The Sixth Extinction: An Unnatural History is a 2014 non-fiction book written by Elizabeth Kolbert and published by Henry Holt and Company. The book argues that the Earth is in the midst of a modern, man-made, sixth extinction. In the book, Kolbert chronicles previous mass extinction events, and compares them to the accelerated, widespread extinctions during our present time.

The Earth's Sixth Mass Extinction Is Accelerating | Holocene

Prologue. In *The Sixth Extinction*, Elizabeth Kolbert studies the relationship between human beings and the environment, and concludes that human behavior is on the verge of causing (or may have already caused) a mass-extinction—the sixth in the history of the planet. All over the world, different species are already going extinct, thanks to the declining amount of available undeveloped land, and the rising temperature.

The Sixth Extinction by Elizabeth Kolbert Plot Summary ...

Less than ten years later—by which time Darwin was back in England, Galápagos tortoises had gone extinct. In his most famous book, *The Origin of Species*, Darwin notes that species become rare before they go extinct, and briefly alludes to human-caused extinction.
